15 Inch Windows Pos Register with J1900 Processor

SuiYi provides QPOS with the strongest price support to ensure that during the promotion of new products, the price is the most cost-effective among the newly launched POS machines in the market. Tend us for more if you get interested!

Product Description

In today's market, where cash register dealers almost exclusively look at price, there is a unique cash register that has emerged to save the day: the QPOS, which has been developed and designed independently by SuiYi. QPOS has been sought after by many customers since its introduction. It is one of the few new multifunctional machines that is both price competitive and has a basic 2-year warranty! It is the perfect choice for those who are looking for a new all-in-one POS terminal to quickly capture the market.

Product Parameter

Specification
